

## Lounger Three Plus – active relaxation

No matter how you define relaxation – the new heated Lounger Three Plus manufactured by the Ceramics Manufactory Sommerhuber with its almost floating design and ergonomically shaped surface ideally nestles the human body and mind, thus ensuring pure relaxation. The backrest is designed more upright to ensure a comfortable position for easy reading, working or simply relaxing. With its length of only ~170cm, Lounger Three Plus is also perfectly suitable for tighter room spaces.

Lounger Three Plus is finished with ergonomically shaped, large area Heat Storing Ceramics in a healthy infrared range. This uniquely gentle ceramic radiant warmth has a soothing effect via the autonomic nervous system. It stimulates the circulation, dissolves muscle tensions and has a positive effect on the immune system – vitality and joie de vivre in their most beautiful form.

The ergonomically shaped, large area Heat Storing Ceramics by the Ceramics Manufactory Sommerhuber are captivating not only due to their unique esthetics, but they also fulfill the highest hygienic standards. With its smooth, easy to clean surface and two transverse joints only, the new heated Lounger Three Plus is both a health enhancing as well as visual experience for body and soul.

Lounger Three Plus is available in two heights – 22cm and 33cm. The electrically heated ceramic surface can be finished in 18 different glazes. This heated lounger is maintenance-free and can be easily cleaned using a soft cloth.
