

The Fine Way

Spirited Craftsmanship - Napa fine

Ancient craftsmanship has always been cultivated by the Keramik Manufaktur Sommerhuber. The contemporary puristic design combined with the new structure Napa fine gives birth to tiled stoves and fireplaces with unparalleled lively surfaces. Thus, every tiled stove is truly a fine unique piece. The special attention to detail is revealed by the surface structure of the corners and edges.

Obvious contrasts – curves and corners, smooth and fine structure - form a harmonious whole. The tiled stove with its lively, pleasantly warm surface in the structure Napa fine produces a healthy, comfortable indoor climate due to its mild ceramic radiant warmth and creates a fine atmosphere in every room.
